Government Girls Higher Secondary School	SSLC	88%	2018-2019

INTERNSHIPS

MERN STACK - ThisUX 2024

Hands-on experience with a diverse set of technologies, focusing on Hono.js and Cloudflare for backend development, as well as website deployment on Cloudflare. Gained expertise in React and Astro to create user-friendly websites. This experience provided a solid understanding of modern web development tools and frameworks.

ADVANCED MERN – Better Tomorrow 2024

Improved backend applications using Express.js, managed databases with MongoDB, and built dynamic user interfaces with React.js. Learned the fundamentals of Redux for efficient state management, ensuring a well-rounded grasp of contemporary web development practices.

PROJECTS

ONLINE LAWYER APPOINTMENT BOOKING - Full-Stack MERN Application 2024

Improved a full-stack online lawyer appointment booking platform using the MERN stack (MongoDB, Express.js, React, Node.js).

- Implemented secure user authentication and authorization with JWT.
- Built appointment scheduling features with real-time status tracking for clients and dynamic dashboards for lawyers to view and manage bookings.
- Ensured a responsive and intuitive UI to enhance user experience across devices.
- Improved booking efficiency and user engagement through seamless client-lawyer interaction flow.

Deployed the platform on Netlify: sakthi-lawyer-appointment.netlify.app

RECIPE MANAGEMENT APP - Full-Stack MERN Application 2024

Developed a feature-rich recipe management platform using the MERN stack (MongoDB, Express.js, React, Node.js).

- Implemented secure user authentication (JWT) and CRUD functionality for recipe creation, editing, and deletion.
- Integrated image upload capabilities using Multer for visual recipe management.
- Categorized recipes for better discoverability and enabled users to save, edit, and share their favourite recipes.
- Focused on responsive design and performance optimization to ensure a smooth cross-device user experience.

Project Link : <https://github.com/sakthii21/Recipe-Management.git>

TRAVEL MANAGEMENT SYSTEM- Full-Stack MERN Application 2025

Built an online travel management platform using the MERN stack (MongoDB, Express.js, React, Node.js).

- Implemented secure user authentication and authorization using JWT.
- Developed features for users to explore travel packages, book trips, and monitor booking statuses in real-time.
- Created an admin panel to manage travel packages, user bookings, and system content.
- Focused on clean UI/UX design to ensure smooth navigation and a seamless user experience across devices.

Project Link: <https://github.com/sakthii21/Travel-Management-App.git>

PET ADOPTION PLATFORM - Full-Stack MERN Application 2025

Built a user-focused pet adoption platform using the MERN stack (MongoDB, Express.js, React, Node.js), enabling seamless adoption of cats, dogs, birds, and fish.

- Implemented secure user authentication and registration flow to manage adopter profiles.
- Developed features for browsing pets by type, viewing detailed pet profiles, and submitting adoption requests.
- Enabled users to track the status of their adoption applications in real-time.
- Designed a clean, responsive UI to ensure a smooth experience across all devices.

Deployed the platform on Netlify: <https://sakthi21petwebsite.netlify.app/>
